

Jet Lag

Hanson

I got jet lag
Nothing's gonna make it go away
I've been trying all night
But nothing makes it right

I got jet lag
Nothing's gonna make it go away
I've been trying all night
But nothing makes it right

I got jet lag
Nothing's gonna make it go away
I've been trying all night
But nothing makes it right
Makes it right
Makes it right

Turn on the tube
Turn on the TV
It's 6 am and I need to put myself out
Why won't you see?
I need a pill
Need a drug
Need a dream
Somebody tuck me in and put me to sleep

I got jet lag
Nothing's gonna make it go away
I've been trying all night
But nothing makes it right

I got jet lag
Nothing's gonna make it go away
I've been trying all night
But nothing makes it right

I got jet lag
Nothing's gonna make it go away
I've been trying all night
But nothing makes it right

It's 7am and now I'm feeling dirty
I take a hot shower

Turn on the AC full blast
Get under the covers
And now I'm tossing
And now I'm turning
The sun is rising, oh
Somebody tuck me in and put me to sleep

I got jet lag
Nothing's gonna make it go away
I've been trying all night
But nothing makes it right

I got jet lag

Nothing's gonna make it go away
I've been trying all night
But nothing makes it right

I got jet lag
Nothing's gonna make it go away
I've been trying all night
But nothing makes it right
Makes it right
Make it right
