

# Joyful Noise

Hanson

If I could turn the world to a melody  
I think so many troubles would cease to be  
Oh oh oh  
If I could bottle the rhythm of a beating heart  
Maybe we could come together more than we fall apart

Everyone has struggles  
But when we black the music out they seem to double  
So

Turn it up  
Join the chord  
Go tell the doctor  
That it heals your soul  
Share the love  
Make a joyful noise  
Dance to the music  
At the corner store

La la la la la la la la  
Make a joyful noise  
La la la la la la la la

If I could capture the feeling of a mother's sigh  
Maybe so many others would sympathize  
Oh oh oh

Everyone has struggles  
But when we black the music out they seem to double  
So

Turn it up  
Join the chord  
Go tell the doctor  
That it heals your soul  
Share the love  
Make a joyful noise  
Dance to the music  
At the corner store

La la la la la la la la  
Make a joyful noise  
La la la la la la la la  
Dance to the music  
At the corner store

Make a joyful noise

Dance all night  
Find your courage  
Dance all night  
Treat yourself  
...

Shake off your worries  
You've got to free yourself  
Shake off your worries

You've got to free yourself

(La la la la la la la la...)

Dance to the music

Dance to the music

Dance to the music

Make a joyful noise

...
