

Live Forever

Hanson

You won't live forever
And this won't last very long

A life begins with lust
Light is on, you must
And on that day you are a child
But nothing else above
Find the ones you love
They might save you when you're old

Live the way you must
But it's twenty-one or bust
You only get one chance at bat
Even great men crash
But they take the unworn path
Never speaking of the loss

Don't ask for much
'Cause you won't live forever
And this won't last very long
You won't live forever
For all your time and trouble
You won't amount to much
You're gonna end up on the sand, dust
