

Nothing Like A Love Song

Hanson

Surrender, the need to justify, the feeling
Just get your body moving to the rhythm
Stay here for a while, and don't stop
Don't stop til you're dancing with a fever
Burning up inside, and you realize
Everything it changes when you feel the music pumping
There's no sense in stopping

Ain't nothing like a love song, to hold on to
Make me want to get close to you, just want to get close
Ain't nothing like the feeling, the rhythm to
Make me want to get close to you, just want to get, want to get
close to you

It takes you by surprise, the moment
You hear your favorite song play for the first time
It fills you with desire, for dancing
'Cause everything changes when you feel the music pumping
There's no sense in stopping

Ain't nothing like a love song, to hold on to
Make me want to get close to you, just want to get close
Ain't nothing like the feeling, the rhythm to
Make me want to get close to you, just want to get, want to get
close to you

I hear the music play, just want to dance with you
Want to dance, want to dance with you

I just want to get close to you, just want to get, want to get
close to you
I just want to get close to you, just want to get, want to get,
want to get close to you
I just want to get close to you, just want to get close to you
I just want to get close to you

Ain't nothing like a love song, to hold on to
Make me want to get close to you, just want to get close
Ain't nothing like the feeling, the rhythm to
Make me want to get close to you, just want to get close to you

Ain't nothing like a love song, to hold on to
Make me want to get close to you, just want to get close
Ain't nothing like the feeling, the rhythm to
Make me want to get close to you, just want to get, want to get
close to you
