

Romance With A Robot

Hanson

I should have know when she walked my way. I should have see from here smiling face
But you've heard it all before. Never meet girls at the hardware store

I was so desperate for love that I never saw the no returns sign
She's so crazy about me I think she's out of her digital mind

Romancing with a robot. Destroying everything you love
For her metallic body and her me mechanical mind
Romancing with a robot. Loving for the mega watts
She'll make you feel electric, but she'll shock you every time

I know then it would all go wrong, but what can you do when it looks so good
Love is a natural thing, but we all have flaws in the programming

I was so desperate for love that I never checked reviews online
She's so crazy about me I think she's out of her digital mind

Romancing with a robot. Destroying everything you love
For her metallic body and her me mechanical mind
Romancing with a robot. Loving for the giga watts
She'll make you feel electric, but she'll shock you every time

If she gets really really turned on when you're watching the movie Tron
If the girl has a really firm grip, better check for a microchip

Romancing with a robot. Destroying everything you love
For her metallic body and her me mechanical mind
Romancing with a robot. Loving for the mega watts
She'll make you feel electric, but she'll shock you every time

Romancing with a robot
Romancing with a robot
Romancing with a robot
