

# Show Me The Way

Hanson

Show me the way, show me the way  
Show me the way, show me the way, show me the way  
Show me the way, show me the way  
Show me the way, show me the way, show me the way

Please take your time 'cause your bodies close to mine  
I don't really need my sanity  
You're my desire, you're about to start a fire in me  
Baby please

I love the way you keep time  
You make the room shine  
Love the way your hips sway  
Show me the way  
Come on, come on, come on, come on  
Come on, come on, come on  
Come on, come on, come on, come on  
Come on, come on, come on

I hope you know I don't have to take control  
I don't mind if you want to lead  
I won't fake, there's a feeling I can't shake you see  
Making me plead

I love the way you keep time  
You make the room shine  
Love the way your hips sway  
Show me the way  
Come on, come on, come on, come on  
Come on, come on, come on  
Come on, come on, come on, come on  
Come on, come on, come on

The way you move it takes me to a place I can't define  
And when the chords start changing I know you'll be by my side  
And I may not be a dancer, but I just can't wait to try

Show me the way, show me the way  
Show me the way, show me the way, show me the way  
Show me the way, show me the way  
Show me the way, show me the way, show me the way

I love the way you keep time  
You make the room shine  
Love the way your hips sway  
Show me the way  
Come on, come on, come on, come on  
Come on, come on, come on  
Come on, come on, come on, come on  
Come on, come on, come on

Yeah

Show me the way
