

This Is The Jam

Hanson

This is the jam!
And I don't know where we're going
I don't want to take a stand
I just want to be who I am
This is my jam!
And I don't care if you're listenin'
I don't want to rock the boat
I just want to rock and roll

Now it's my turn to go
Now it's my turn to make some noise
It's not your turn anymore
Wanna rock your world
This is the jam!
This is the jam!
This is the jam!

This is the jam!
There is no hidden meaning
I know you've got a spark inside
I just want to start a fight
This is our jam!
The game is only beginning
I've been sitting on the side
I think I'm gonna score tonight

Now it's my turn to go
Now it's my turn to make some noise
It's not your turn anymore
Wanna rock your world
This is the jam!
This is the jam!
This is the jam!

I see you stomping your feet
I see you pumping your fist
I see you stand in your seat
I feel you screaming with me
I see you stomping your feet
I see you pumping your fist
I see you feeling the beat
I hear you screaming with me
I see you stomping your feet
I see you pumping your fist
I see you stand in your seat
I hear you screaming with me
I see you pumping your fist
I see you screaming

This is the jam!
This is the jam!
This is the jam!
This is my jam!
This is the jam!
Scream it!
This is the jam!
