

Waiting for This

Hanson

Without a doubt girl you're ahead of your time
Let's go out on the town
Give it a piece of your mind
You've been going round and round in your head
So don't think twice
You'll end up worse than you've been

Cause I know that you've been thinkin' bout it
And I know they think you're out of your mind
All of this time
I know that you've been waiting for this

So come on shout it out so everybody can hear
There's no need to rhyme it The message is clear
You know I can't ignore
So I don't know what you're waiting for
But you're trying hard not to show it

Cause I know that you've been thinkin' bout it
Well I know they think you're out of your mind
All of this time
I know that you've been waiting for this
Come on come on
I know that you've been waiting for this

Can't figure out how we made it this far
If you don't mind me sayin',
there's no sense in waiting so
Shout it out, shout it out
Shout if out, shout it out
You can't deny it, you can't deny it

Cause I know that you've been thinkin' bout it
And I know they think you're out of your mind
All of this time
I know that you've been waiting so
You can't deny
I know that you've been waiting for this
I know that you've been waiting for this
