

What's Your Name

Hanson

Don't be shy, I'm not gonna bite
Your playing it cool, I'm not your fool, just take you time
When you decide, just give me a sign
Let's break the rules, I've got the tools to feel your mind

Dressed so fine you could make me blind

'Cause it's hard enough just livin', without your childish game
s
So won't you tell me, tell me, tell me, tell me what's your name
e
What's your name
Tell me what's your name baby, what's your name

You're such a tease, I'm weak in the knees
'Cause your lines your eye are hypnotizing me
You've got plenty to spare, it's just isn't fair
If it's what you need, I'll make a scene, I don't even care

Dressed so fine you could make me blind

'Cause it's hard enough just livin', without your childish game
s
So won't you tell me, tell me, tell me, what's your name
What's your name

Dressed so fine you could make me blind

'Cause it's hard enough just livin', without your childish game
s
So won't you tell me, tell me, tell me, what's your name
What's your name

Won't you tell me what's your name baby
Tell me what's your name baby
Tell me what's your name baby
Tell me what's your name baby
Tell me what's your name baby
Tell me what's your name baby
I've got something for you
