Hanson

This is an awesome kit!

This is an awesome kit  
It's got the coolest stuff ever  
This is an awesome kit  
It's got the coolest stuff ever

This is an awesome kit!

When you get your kit, it'll change your life  
Turn the speakers on and listen to it all night

You're gonna go wild, gonna go crazy  
This moment of your life  
When you, when you, when you, when you get your kit  
Start to cry and then you'll say  
Zac, I want to have your baby!  
When you, when you, when you, when you get your kit

This kit is so awesome  
It will change your life forever  
It is truly the greatest kit that has ever been  
When you get your kit

Hansontastic wrapped up in plastic  
No other band could have matched it  
Doesn't matter what you say or do  
Gonna blow you away when it's coming to you

When you get your kit, it'll change your life  
Turn the speakers on and listen to it all night  
When you get your kit, it'll change your life  
Turn the speakers on and listen to it all night
