

## Working

Hanson

Six A.M. rolling out of bed  
Putting on my pants, fixing my hair  
My wallter, watch, pulling out the drive  
Got to arrive before the clock strikes nine

Hour after hour, day after day  
I'm working so hard so I can get paid  
My momma always said dress for success  
Monday, Tuesday, Wednesday, Thursday, Friday in my Sunday best

All week I've been working  
This weekend is working for me

Punching in my time card, talking to myself  
Working up my courage, practicing my sell  
Talking to the boss about my check  
'Cause my payroll's so small gives me a crick in the neck

Twelve P.M. still hard at work  
He acts like he's king but he's a white-collar jerk  
You gotta kiss the ring if you wanna get ahead  
Because they make you pay your taxes even when you're dead

All week I've been working  
This weekend is working for me

Eyes on the clock, putting in the time  
Three till five I'm just doing pantomime  
It's not a felony to try and get a break  
You play by the rules and I'll be on the take

I gotta get the money, so I can get the power  
'Cause power ain't free they charge by the hour  
Working for the weekend so I can unwind  
But I'd stay a little longer if they'd pay me overtime

I keep on working, this weekend is working for me  
All week I've been working  
This weekend is working for me  
All week I've been working  
This weekend is working for me  
All week I've been working  
This weekend is working for me
