

# World Goes Around

Hanson

Maybe your troubles got the best of you  
God knows the punishment don't always fit the crime  
Sometimes you know even your best won't do  
Does the end of the rope mean hell or hope that's up to you

Because the world goes around  
And everything changes  
And then we start again  
But wearing different faces  
Sometimes you're on top  
Sometimes you're not  
Even the sun goes down  
Because the world goes around

And we take our chances together  
Turn for the worse  
Or turn for the better  
Who can say  
All we can do is endeavor  
To live like nothing bad can last forever  
All our days  
Because the world goes around

Maybe it's not enough to know your way  
Sometimes you've just gotta take the long way around  
Choose your adventure there's no pay or play  
What's gonna be your measure pain or pleasure

Because the world goes around  
And everything changes  
And then we start again  
But we're in different places  
Sometimes you're way up  
But on your way down  
Like a kid in the clouds  
And then the world goes around

And we take our chances together  
Turn for the worse  
Or turn for the better  
Who can say  
All we can do is endeavor  
To live like nothing bad can last forever  
All our days

Because the world goes around  
And everything changes  
Then we start again  
In all our different ways

And then the world goes around and 'round and 'round  
Then everything changes  
Then we start again  
In all our different ways, oh so different  
Sometimes you're on top  
And sometimes you're not  
Even the sun goes down

Because the world goes around
