Hanumankind

I need to let loose, bullets in the chamber  
Feel good when I shoot, duck cause you in danger  
You duck or you a goose, yeah your circle looking weak  
Bunch of chickens in the coop, watch what comes out of you beak

Cause I'm coming with the heat  
Global warming at the peak  
Melting all your polar caps, Santa Claus about to freak  
Not the north but from the south, that's where all my people be  
See us and you'll figure out, that the heritage is deep  
Deeper than anything you can dive in  
Grab your scuba gear if you planning on surviving  
My people need a Batman and Robin  
But when we lookin out its like Batman gone robbing  
Like, that's not how its supposed to work  
When the ones who claim good doing most the dirt  
When the ones who claim to protect mostly hurt  
All the ones who try live where the rules berserk  
Justice for Jayaraj and his son  
Kakhi clothes don't mean shit you fucking bums  
Unless you live by a code that mean more than using guns  
And sticks to beat civilians who need protection  
The problem systematic  
Should've reached these answers a while ago but we were static  
Shouldn't take a tragic event to have movement  
One step forward, 3 steps back not improvement  
Not a prophet or a fucking messiah  
Just a child of the world eating chips with my chaiya  
Flip the bird to the law cause I'm steady getting higher  
Than the thoughts, of astronauts, my dogs

I need to let loose, bullets in the chamber  
Feel good when I shoot, duck cause you in danger  
You duck or you a goose, yeah your circle looking weak  
Bunch of chickens in the coop, watch what comes out of you beak

See I need to let loose, bullets in the chamber  
Feel good when I shoot, feel like we all in danger  
No chance to have a truce, that's not something that I see  
Cause they're sending out the troops when we protesting in peace  
Trust is something that they've breached, once its lost it can't be reached  
Got me sick inside the stomach  
This the belly of the beast  
The powerful they feast  
North south west east  
Stuck without a paddle riding down shits creek  
Where does a troubled mind look for salvation  
Chasing, something that can't be seen  
What I mean is, this way people scheming  
The truth stretched out like limousines  
So condense motherfucker  
I bench motherfuckers, put the weight on my set  
Cigarettes and plenty water after sex  
Hydrate and hold  
This that new new, couple years down its gold  
24 carrot flyer than a parrot on a jet  
Coming back to the issues that I see can't forget

I observe that while I might've bounced a check  
I got neighbors asking favors for a meal or less  
So, blessed, what I consider myself  
Good food, good music, so far good health  
Praise to the unknown  
Some might even call it God  
But what's God in a world where there's so much flawed

I need to let loose, bullets in the chamber  
Feel good when I shoot, duck cause you in danger  
You duck or you a goose, yeah your circle looking weak  
Bunch of chickens in the coop, watch what comes out of you beak

Bullets in the chamber  
Feel good when I shoot  
Feel good when I shoot  
Feel good when I shoot  
Duck cause you in danger  
Feel good when I shoot  
Feel good when I shoot  
Feel good when I shoot  
I need to let loose
