Hanumankind

Daily dose of dope, see if you can cope  
If you cannot hang with it then I'm handing you the rope  
I don't fuck with all the sheep, rather try to be the goat  
Bad man from the land where politics are broke  
What you know about that bitch, honestly it doesn't matter  
They say knowledge gives you power but it don't make your pockets fatter  
And this a system where they only listen if you got a buck  
But by the time you make it your intentions been corrupt  
That's absolute, people rotten to the roots  
I don't want no bad apples when it's coming to the fruit  
That's not something that you want to take a bite into  
Cause they the type that when you offer one they bite in two  
Throw up the deuce  
Cause I'm too deadly like Brandon and Bruce  
Yeah I hit em with the fire, knock em down with the juice  
Yea we entering the dragon fist of fury what I use  
South side what it do  
Man from the KL making hell break loose  
Others looking too frail, taking L's with they crew  
But we fly till we die like we don't need no parachute

Illuminate  
Shed light cause we in some dark times man  
I'm the type of man to sit and meditate  
In the AM so that we can demonstrate  
Till the PM we be changing up our fate  
Carpe Diem why the fuck we gotta wait

Fuck you weekends we been on it every day  
We don't party man we'd rather celebrate  
Every other person looking for a break  
Break a man down if they see you hesitate  
I'm no saint, never something that I claim  
I'm just dodging bad karma so my conscious doesn't taint  
Going hard in the paint  
Young Charizard we evolve with the change  
I gotta catch em all when I train  
Like I been up at the gym get it on with the gains  
But fuck a flex cause  
That don't serve a purpose when revolution is next cause  
When the population be held down by the suppressors  
Someone's gotta show up and show em how we affected
