

Run It Up

Hanumankind

Run it up
The sun is up
To when it down
Get ya money up
I put money down
On all of us
On my people now
On what I love

Ooh baby it's dangerous
Your problems they just not the same to us
We dealing with things you ain't seen before
We feeling the weight of our ancestors
We healing with ways that don't last for long
Don't have us time ain't it obvious?
No help for the weak but the liquor strong
Plenty here pour it for all of us

Now bring out the drums in this bitch all my homies got rich doing shit that
they said wouldn't work
Bring out the guns in the bitch here to load up a clip and go shoot up the p
lace we don't care
I see the bums that be wishing we end in a ditch yeah they praying to see a
man hurt
I see the love that we give and the love that we get make sure everything co
ming full circle
We went from nothing to something got all of them jumping to shit that we ma
de from the air
We went from running and gunning with nothing in stomach to feeding the neig
hborhood bruh
There ain't a person alive that be matching the vibe it honestly ain't even
fair
There ain't a dude with the drive and the vision like I have unless I go loo
k in the mirror baby

So run it up
The sun is up
To when it down
Get ya money up
I put money down
On all of us
On my people now
On what I love

Ooo baby we run it up
Get it the minute the sun is up
There is no resting when sun is down
Work it for real get ya money up
Believe it on god put money down
I'm betting the odds on all of us
Do this for all of my people now
Put that on everything I love

Yeah on everything that I love
Yeah ain't nothing there come above

(Yeah, 3, 2, 1)

We go from angry and mad to happy and glad to find a solution for us
We go from sorry and sad to ready to grab our weapons and get to the front
I want the money the cash the moola the bag the currency stacking it up
We want the freedom to live and the freedom to have the things we been lacki
ng my bruh
So what are we lacking? I could point it out
So much that's around, better settle down
No point doing that, or they send the hounds
Bite me in the ass, put me in the ground
Turn me into ash, culture carried down
From those who came up before me
I'm here to change up the story
Find me at work in the morning
Find me where people are mourning man
'Cause death is around every corner
When life isn't free for a person dawg
You act like an animal cornered
Savages speak in a language y'all
You don't understand you a foreigner
Don't nobody need an advantage nah
We needing some balance and order
But you know that's never the case
Never a chance that they changing their ways
It's never a choice that they giving to you
There will never be justice to face
We sing for the sorrow and dance for the pain
No one to follow it's just you and me
I swear that it's coming we starting today
But we wake up tomorrow and things are the same
Damn
