Hanumankind

Ain't nobody fucking with the Hanumankind leave a motherfucker ducking  
When I get up on the mic like I pushed a red button  
Cause I'm bout to blow up on a bitch  
Even if I get rich, bet your boy won't switch  
Making moves in the game trying to make that hoe glitch  
I'm a hard headed dude cause I been head butting as I try to move up on the  
goddamn list  
New phone who dis?  
Hit me up if you got the contact  
We go incognito, so you really gotta know where we roll if you want that  
This should go beyond rap, if you looking for your peace but you do it with  
you fucking combat  
Down south we been on that  
Southside do or die, Bangalore where I drop bombs at  
Take cover bitch run to where your moms at  
I been that dope boy for a minute  
Rolling through your city with the windows tinted  
Imma get it how I live it this a man on a mission  
I'm a killer with no pity, make a motherfucker feel it like  
Goddamn, way too potent  
One hit get your head blown open  
One hit got a motherfucker choking  
One hit got a motherfucker roped in  
Now I am your dealer, got it by the liters  
Gallons and kilos, take me to your leader  
Marching with my martians, looking for a meal cause you know we been starvin  
g  
Can't be stopped, no we can't be parking  
Roll till I die like I'm Steven Hawking

I come from the Southside, Southside baby  
I come from the Southside, Southside baby  
I come from the Southside, Southside baby  
Leave em with their mouth wide, on the outside baby

I don't really give a damn, sticking to the plan  
Shitting on these cats I hope these pussys understand  
Shoutout to the ones that been with me since we began  
If you been here from day one then know I'm with you till the end  
And if you ain't, I don't fuck with you, I don't fuck with you  
Had to say that shit twice like double doses of the truth  
Double barrel when I shoot, taking shots up at your crew  
Shooting bullets through my teeth like Kurt Cobain in 92  
Never mind that's 94, double checking all my proof  
Double crossers all around us tryna tell us what to do  
All my soldiers in the struggle it's to you that I salute  
We been on it on the double and you know we don't recruit, cause

I come from the Southside, Southside baby  
I come from the Southside, Southside baby  
I come from the Southside, Southside baby

I come from the Southside, Southside baby  
I come from the Southside, Southside baby  
I come from the Southside, Southside baby  
Leave em with their mouth wide, on the outside baby
