

Villainous Freestyle

Hanumankind

This that first class third world, running up the digits
This that get money plus your girl, how we handle business
This that real life, get it right, stay away from gimmicks
This that hometown hero but we moving like the villains
This that top notch, keep it hot, burning all the bridges
This one way, here to stay, wait until we finished
This that made strong, way beyond, anything that you witnessed
Uh, look how we go get this
Uh, put your shades on when we hit this
Baby, we shining

Product of the pressure I'm a diamond
Check the cabin pressure we arriving
This is your pilot
Buckle up you know we getting rowdy
Knuckle up in case it's getting violent
Baby be honest
First time doing it like I did
Lay it down I'm busting through the hymen
Fucking up the scene is my assignment
Got them all choking on my Johnson
Hit them with the rock them we bouncing

Yeah bounce
Careful what you bring in my house
I ain't really fucking with that sucker shit nah
Bunch of vampires fucking with the count
Dracula, going for the jugular
Man, they been tryna mirror my sound
They been tryna fuck with my figures, go figure
Cause they can't figure this

No they can't top that
Flyest from the top down
Baby we won't talk back
We got to talk now
Watch me peel your top back
We ain't got to stop now
Tell me can you top that?
Baby can you top that huh?

Murky business when we in this
They gon witness after testing we get litmus
Shit is uncut shit is pure shits expensive
Get you fucked up on the floor out your senses
Another line though
Are you sure are you with this?
Got a fat sack on the way Father Christmas
Got it wrapped up with a bow I present this
To the good folk of the world take a hit quick
Ooh
Can't nobody do it like this
High grade my grade top shelf cannabis
My shade don't fade burn like anarchists
Roll some burn some stoned like amethyst
Pro, not a protagonist
An activist against all of your idols

My dogs are wolves amongst all our rivals
We tear and pull apart on arrival like
Awooooo, got them all howling
Bitch I'm on the hunt we prowling
Give em what they want they growling
Aw awoooo, you ain't allowed in
Pack stay tight stay grounded
But the pack got us walking on clouds man

Elevated

Baby, watch me demonstrate it
Yeah it's more than what you seeing on the news that we making
If you thinking that we changing up our views you confused
With the moment rather than the bigger picture that we painting
Yeah I know you tired of waiting yeah I know you tired of pain
If you think that we don't get it maybe one day that'll change
Got a chance to make a difference so we trudging through the trenches
Oppositions and defenses baby charge it to the game
