

# Alone And Cold

Happy Days

Down again!  
Here alone, the hidden wounds  
No more here, i am gone

Down Im Again  
Lost, Gray and Cold  
Im suffering, waiting you..  
Embracing the false hope.

Fuck you, i am gone  
There is no way to come out  
Absolute suffering  
Deep in my Heart  
I am lost, lost in blood

I wander alone, whispering unto you  
Night that wept, and returns again  
My fallen, specimen  
No, not you!  
Any feeling is gone, Now!  
Traveling on endless tunnels  
Im lost in every corner

Down! False!  
How i wish you were here.  
Returning and returning to nowhere  
Watch me, and touch me, and feel the cold skin  
Now! i failed again, i am bloodsoaked  
For i have lost my mind

Alone and Cold  
Here i am, really?  
All is dead, there's only breathing wounds  
Night returns again, and take my hand  
Leading to salvation,  
Salvation through pain

Everything seems so distant!  
Why?  
So i am alone now,  
but that's not something new  
Since i have failed, my skin is dead

Everything has changed..
