

Always and Forever

Hard-Fi

Hey what's your name?
I've not seen you around here before
I can't explain
But seeing you gives me something to live for
And all this time
All this wasted time it's a heartache
But I don't mind, it's not one thing
One thing or another so...

Take my hand, cos we got
Time to kill, and if you
Have no plans
Then we can do whatever
Maybe get together
Always and forever

Let's shed our skin
Try each other's clothes on, we can be free
It ain't no thing
We are naked to all sensibilities
And I believe
If we make it we make it look easy
But that's just me, it's not one way
One way or another so...

Take my hand cos we got
Time to kill and if you
Have no plans
Then we could do whatever
Maybe get together
Always and forever
Always and forever...

You always love somebody
Always, always

Hey what's your name?
I've not seen you around here before
I can't explain
But seeing you gives me something to live for
And all this time
All this wasted time it's a heartbreak
But I don't mind, it's not one thing
One thing or another so...
