Hardcore Superstar

Is there a chance for me
Will never change my personality
A plan for me
Where I can keep my personality

I'm only human baby, got this rhythm in me
But only half a man without my personality

Is there a chance for me
Will never change my personality
A place for me
Where I can keep my personality

They want to give me treatment
Even though I am healing
Prosecute me
Cuz they caught me stealing

Is there a chance for me
Will never change my personality
A place for me
Where I can keep my personality

Is there a chance for me
Will never change my personality
A place for me
Where I can keep my personality

I got my head messed up
That's what they are saying
On a free ride baby
Guess who is paying

Is there a chance for me
Will never change my personality
A place for me
Where I can keep my personality

I will tell you to shut up
Cuz you bring me down, bring me down
Don't want to hear a sound

Is there a chance for me
Will never change my personality
A place for me
Where I can keep my personality

Is there a chance for me
Will never change my personality
A place for me
Where I can keep my personality
