

## Dig A Hole

Hardcore Superstar

Last night it all came clear  
I wonder really if you know for sure  
A black suit with a blacker tie  
I love you, there's nothing to do

CHORUS:

All there's left, a wooden box and a book of memories  
I know that the other night before  
I said, all I do is dig a hole for you  
All I do is big enough for you  
All I do is dig a hole for you

Damn you all, a dream of a fool  
Repent my memories, there's nothing you can do  
I think you better listen, I only tell you once

CHORUS (2x)
