

One for All

Hardcore Superstar

Got a pain in my neck
From staring at the stars
From all those bottles I've emptied in your bars
Got a pain in my neck
From staring at the sun
A real pub harlot always chasing fun

You know that feeling
You know I love you all
Heart starts pumpin' (my call)
Loyal to you all

I'm all for one for all
One for all
Loyal to you all
One for all

We are right on the track
We're heading for the sun
Not defeated 'til the race is run
Wanna run with the pack?
The party's just begun
Pass the bottle, I'll show you how it's done

You know that feeling
You know I love you all
Heart starts pumpin' (my call)
Loyal to you all

I'm all for one for all
One for all
Loyal to you all
One for all
I'm all for one for all
One for all
Loyal to you all
One for all

Loyal to you all

I'm all for one for all
Loyal to you all
I'm all for one for all
Loyal to you all
One for all
