

The Others

Hardcore Superstar

Watch out, I'm proud of my name
Stay close, get touched by the flame
Stick together, hear what I say
Forget tomorrow, get even today

You don't rat on your brother
We got a secret we don't tell it to the others
You won't find another
We got a secret, don't answer to the others

Stand tall, stick with your friends
Trust is what counts in the end
The inner circle, you gotta defend
Protect the people on whom you depend

You don't rat on your brother
We got a secret we don't tell it to the others
You won't find another
We got a secret, don't answer to the others

I got to know, I got to know
I got to know, I got to know
Hear me what I say

Watch out, I'm proud of my name
Stay close, get touched by the flame
Stick together, hear what I say
Forget tomorrow, get even today

You don't rat on your brother
We got a secret we don't tell it to the others
You won't find another
We got a secret, don't answer to the others

You don't rat on your brother
We got a secret we don't tell it to the others
You won't find another
We got a secret, don't answer to the others

I got to know, I got to know
I got to know, I got to know
