

# Fuel to the Fire

Hardline

I'm like a hurricane  
I'm headed for you  
Wake up, there's something I just got to do  
Listen up

I've seen a million faces  
And they will come and go  
Drown in my wake of resistance  
Wait and you will see

Add my fuel to the fire  
When you're down for the count  
I'll be reaching for higher  
Fuel to the fire  
Facing the heat my own way  
Add my fuel to the fire  
Fuel to the fire  
Fuel to the fire

Hurry up  
I can't stand not another minute, no  
Shut up  
I can't listen to you any more, no more

Shattered in a million pieces  
Beyond repair  
And let the truth be written  
Wait and you will see

Add my fuel to the fire  
When you're down for the count  
I'll be reaching for higher  
Fuel to the fire  
Facing my heat everyday  
Add my fuel to the fire  
Fuel to the fire  
When you're down for the count  
I'll be reaching for higher

I've seen a million faces  
And they will come and go  
Caught in my wake of resistance  
Wait and you will see

Add my fuel to the fire  
When you're down for the count  
I'll be reaching for higher  
Fuel to the fire  
Facing my the heat my way  
Add my fuel to the fire  
Fuel to the fire  
Fuel to the fire  
Fuel to the fire
