

# Heartless

Hardline

Things they come and go

I keep pushing on the left side  
Staying high on the lowlifes  
Say it, mean it, do it, stay the line  
Sooner later it will breakdown  
Like spittin' oil on the grapevine  
Tearing through the pages in your mind

If you can tell me why and where I'm wrong  
I'd embrace it all and fly

You, got us in this mess  
Made us more than less  
You're heartless  
Yea you, took it all in vain  
Made us all insane  
You're heartless

Try to push, try to shove away  
Wasting time with every word you say  
Making something great's your evil play  
Let me break this down listen up  
Your psycho lies just interrupt  
Don't come back now don't come back you're through

If I could tell you all I hear in my head  
It would be a heartfelt f you

You, got us in this mess  
Made us more than less  
You're heartless  
Yea you, took it all in vain  
Made us all insane  
You're heartless

You, you, you...

You, got us in this mess  
Made us more than less  
You're heartless  
Yea you, took it all in vain  
Made us all insane  
You're heartless

You, got us in this mess  
Made us more than less  
You're heartless  
Yea you, took it all in vain  
Made us all insane  
You're heartless

You're heartless  
You're heartless
