

Heavenly

Hardline

How many words, how many times
Must I weigh and rely
Wasting way, the dream as it fades
With no end of compromise

Ya held me away, you were my safe
Moved mountains away
Where there's a will there's a way
Time and again, I remember you'd say

Heavenly, come make me whole again
You are my everything, show me the way
Cause I'm lost and not here
Down I will stay, down I will stay heavenly

Take and erase, my will in this place
Let it all wash away
The bitter, the sane, it all feels the same
In the hourglass we break

I'd be lying if I said, I'm not afraid
If you're counting on me
But there's a will there's a way
Time and again, I remember you'd say

Heavenly, come make me whole again
You are my everything, show me the way
Cause I'm lost and not here
Down I will stay, down I will stay heavenly

Give me a way out, I can't run anymore
Give me a face in the truth and the way

Heavenly, come make me whole again
You are my everything, show me the way
Cause I'm lost and not here
Down I will stay, down I will stay
