

Helio's Sun

Hardline

Is it worth keeping
What's in-between
As your stuck knee high in the laundry of life
Beam me up Scotty and take me higher
Helio's defense
As he burns my skin
Teaching me all of what lies within
Ride your fire and take your win

Power up and let it ride
Who flipped the switch in you tonight

Oh oh oh
You're the golden child
Saddle up let's ride
Oh oh oh
You can't run from Helio's sun

Is it worth begging
For first in line
Drop your ass like a little boy
Just ask daddy for a brand new toy
Keep all your keepsakes
For you and yours
Strangle the past and all's ignored
Banged your head on a cotton floor

Power up and let it ride
Who flipped the switch in you tonight

Oh oh oh
You're the golden child
Saddle up let's ride
Oh oh oh
You can't run from Helio's sun
What have you done

Oh oh oh
You're the golden child
Saddle up let's ride
Oh oh oh
You can't run from Helio
Oh oh oh
You're the golden child
Saddle up let's ride
Oh oh oh
You can't run from Helio's sun

You can't run
