

# In the Dead of the Night

Hardline

Where are we now  
That all the chains are broken  
When all the words have spoken

And nothing will surprise  
Our journey to the glory  
This is our life story

Listen to the thunder roar  
Knocked down to the floor  
One with nothing on your side  
Keep on riding on the path  
In the dead of the night

Burning bridges 'til the end  
There ain't nothing to pretend  
In the dead of the night  
In the dead of the night

Make your way to the world  
And find your peace of mind  
Never look behind

The sign of the cross  
The freedom of the son  
Every action has its road

Listen to the thunder roar  
Knocked down to the floor  
One with nothing on your side  
Keep on riding on the path  
In the dead of the night

Burning bridges 'til the end  
There ain't nothing to pretend  
In the dead of the night

One with nothing on your side  
Keep on riding on the path  
In the dead of the night

Burning bridges 'til the end  
There ain't nothing to pretend  
In the dead of the night

One with nothing on your side  
Keep on riding on the path  
In the dead of the night

Burning bridges 'til the end  
There ain't nothing to pretend  
In the dead of the night  
In the dead of the night
