

# Stay

Hardline

If you wanna reach my heart  
If you wanna touch my soul  
Remember my girl  
There's only one word I know

If you wanna walk with me  
And find our inner world to see  
To see who we are, to live what we feel

And we can hold on, hold on to your love  
Shine on, shine on me  
Hold on, hold on to your love and stay  
Stay with me

Stay, don't go away  
Baby I know how it feels to be desperate and lonely  
Stay, don't go away  
I longed for your touch please stay with me

If you wanna lay by my side  
If you wanna hold your arms around me  
Remember my girl  
There's only a four letter word

If you wanna see the truth  
The truth behind my eyes is easy to see  
To see who we can be and live for what we feel

Oh! Hold on, hold on to your love  
Shine on, shine on me  
Hold on, hold on to your love and stay  
Stay with me

Stay, don't go away  
Baby I know how it feels to be desperate and lonely  
Stay, don't go away  
I longed for your touch please stay with me

Close your eyes just to remember  
The dreams we had and I will surrender  
Stay with me and never walk away

Stay, don't go away  
Baby I know how it feels to be desperate and lonely  
Stay, don't go away  
I longed for your touch please stay with me

All right !

Stay, don't go away  
Baby I know how it feels to be desperate and lonely, oh yeah !  
Stay, don't go away  
I longed for your touch please stay with me
