Surrender

Hardline

Listen up watcha think about this
Wrap your head around a different feeling
Open up and let your ears hear this
Untie yourself when you're completely useless

Come on, come on, come on you hear me
I can't see you when you're disappearing
Hold on hold on hold on now
Don't fade from me right now

How in the world did I know
You needed me more than I knew you
And I can't believe its true

Never never say, I surrender
Carry on your way
And never look back

I will never...
Surrender...

If I only knew how much you needed to say
The truth relies on your words and wisdom
Sorry I saved it for another day
When pressures on it seems all so lifeless

Come on, come on, come on you hear me
Are you hanging on and still believing
Hold on hold on hold on now
Don't fade from me right now

How in the world did I know
You needed me more than I knew you
And I can't believe it's true

Never never say, I surrender
Carry on your way
And never look back

I will never...
Surrender...

Come on come come on
Open your heart and be saved
Hold on hold on hold on
Open your eyes and say

Never never say, I surrender
Carry on your way
And never look back

Never never say, I surrender
Carry on your way
And never look back

I will never...
Surrender...

I will never...
Surrender...
