

# This Love

Hardline

When did we know  
Where did it show  
Did you see it written on my face  
How did you feel  
Make believe or real  
Living in a moment made for us

There's no question no mistaken  
In my heart for you I'm aching  
I belong to you and you to me

I may not know it all  
Tangle words and say them wrong  
But what I do know you know, I know this love  
I may not be a king  
With a fortress to live in  
But what I do know you know, I know this love

When did we know  
Where did it show  
Did you see it written on my face  
When the time will come  
For two to be one  
Wipe your tears and listen to this song

There's no question no mistaken  
In my heart for you I'm aching  
I belong to you and you to me

I may not know it all  
Tangle words and say them wrong  
But what I do know you know, I know this love  
I may not be a king  
With a fortress to live in  
But what I do know you know, I know this love

There's no question no mistaken  
In my heart for you I'm aching  
I belong to you and you to me

I may not know it all  
Tangle words and say them wrong  
But what I do know you know, I know this love  
I may not be a king  
With a fortress to live in  
But what I do know you know, I know this love

I may not know it all  
Tangle words and say them wrong  
But what I do know you know, I know this love  
I may not be a king  
With a fortress to live in  
But what I do know you know, I know this love

Did you see it written on my face
