

Light It Up

Hardwell

Light it up
Let the fire start burn
Light it up
Let the fire start burn
Light it up, light it up, light it up
Light it up, light it up, light it up
Light it up
Make the fire burn, make the fire burn, burn

Light it up, light it up, light it up
Light it up

Ya, ya
We shining bright like we are starlights here
We keep on glowing like the moonlighting
Taking the vibe so high
We don't high
So we will jump and dance can't get enough
So we will jump and dance can't get enough
Eh, eh, eh, oh, oh
I'm singing a little song for you
Can't believe I'll leave in the morning
Can't know what I'm feeling
Can't believe I'll leave in the morning
Ain't no joking

Burn up the fire and burn up the peace
Burn up the fire and burn up the peace
Burn up the fire and burn up the peace
Burn up the peace, burn up the peace
Burn up the fire and burn up the peace
Burn up the fire and burn up the peace
Burn up the fire and burn up the peace
Burn up the peace, burn up the peace

Light it up
Let the fire start burn
Light it up
Let the fire start burn
Light it up, light it up, light it up
Light it up, light it up, light it up
Light it up
Make the fire burn, make the fire burn, burn

Light it up, light it up, light it up
Light it up
