

## Power

Hardwell

I'll fill you up with bones that can never break  
Take you to a darker shade of grey  
Warm you like a sun that'll never fade  
Ooh, ooh

This is power, this is power  
This is power, this is power, power, power  
This is power, this is power  
This is power, this is power, power, power

Power  
This is power, this is power  
This is power, this is power, power, power

I'll give you every heart of a hundred souls  
You can be the fire to kill the cold  
I'll break you like a rock that could never hold  
Ooh, ooh

This is power, this is power  
This is power, this is power, power, power  
This is power, power, power

Power  
This is power, this is power  
This is power, this is power, power, power
