

# Summer Air

Hardwell

Feel the sun on your skin  
Feel the love sinking in  
Oh babe, what we waitin' for?  
We got nothing to do  
You got me, I got you  
Oh, feel the sun on your skin  
Feel the love sinking in  
Say babe, what we waitin' for?  
And no place I'd rather be  
I got you, you got me

It's going off, I swear  
We got it all right here

There's must be something in that summer air  
Just high life and we don't care  
There's must be something in that summer air  
So high and we don't care  
There's must be something in that summer air  
Just high life and we don't care  
There's must be something in that summer air  
So high and we don't care  
That summer air

Feel the sun on your skin  
Feel the love sinking in  
Oh babe, what we waitin' for?  
We got nothing to do

You got me, I got you  
Oh, feel the sun on your skin  
Feel the love sinking in  
Say babe, what we waitin' for?  
And no place I'd rather be  
I got you, you got me

It's going off, I swear  
We got it all right here

There's must be something in that summer air  
Just high life and we don't care  
There's must be something in that summer air  
So high and we don't care  
There's must be something in that summer air  
Just high life and we don't care  
There's must be something in that summer air  
So high and we don't care  
That summer air

That summer air

There's must be something in that summer air  
Just high life and we don't care  
There's must be something in that summer air  
So high and we don't care
