If the Uber gets banned  
How my Enfield tings gon' cope?  
Cah they don't know a thing about trams  
But in a heartbeat still wan' stroke  
I rev the Range Rove' bare gas  
And now my Croydon ting wan' loaf  
We hit the dance then leave all smash  
We soon blow then we champagne toast  
Come on, come on

Uni girls left me for Tion  
And now they wanna know what we on  
Ching ching, make em all pree pree on  
Can't call me 'H' call me 'Leon'  
Hey, looks ain't my USP  
But I got a hundred racks on my USB  
My white bruddahs doing up UFC  
Stepped in with the gang lookin' USG

I don't even talk  
Every gal wan' wuk off for me  
In the dance and they bruk out for me  
Push their back out for me  
No [?] now they cat out for me  
Straight racks we don't step out for free  
(Come on, come on)

We don't play no games with them  
All of them wan' play pretend  
We don't play no games with them  
All of them wan' play pretend  
They love me  
I know they won't say they do  
You know their man feel a way  
You tell by the way they move

Couple gal left me for Hardz  
Cause they saw him and Ace in the charts  
They be givin' good brain to the stars  
Back stage at the shows and dance

Sometimes I'm flexy  
Hilfiger and a denim shirt got me sexy  
Navy drop, red hate got me pepsi  
Now tings from my spot can't get me  
You get me?

Those days we were chillin' on the corner  
Now the Range Rove' round the corner  
Broke days when we couldn't stack a one up  
Now we star hard we not suffer  
We tellin' 'em to  
Boat with me that's if you fuck with me  
Broke women your money ain't talk to me  
Those days we were chillin' on the corner  
Now the Range Rove' round the corner
