Bite the Bullet

Harem Scarem

You let emotion start
To poison your mind
You're letting down your guard
It happens all the time
Cause trust is hard you build up walls
Now you're ready for attack
So afraid of what's ahead
You forget to watch your back

I don't wanna wake up
In the arms of the enemy
Looking down the barrel of a gun
I don't wanna wake up
In the arms of the enemy
But I knew that this day had to come

If you could hit restart
Would you take another path
Ya got no crystal ball
You can only see the past
Cause trust is hard you build up walls
Now you're ready for attack
So afraid of what's ahead
You forget to watch your back

I don't wanna wake up
In the arms of the enemy
Looking down the barrel of a gun
I don't wanna wake up
In the arms of the enemy
But I knew that this day had to come

You gotta bite the bullet
Don't wanna choke it down
You gotta bite the bullet
Start over

You gotta bite the bullet
Don't wanna choke it down
You gotta bite the bullet
Start over

I don't wanna wake up
In the arms of the enemy
Looking down the barrel of a gun
I don't wanna wake up
In the arms of the enemy
But I knew that this day had to come

You gotta bite the bullet
Don't wanna choke it down
You gotta bite the bullet
Start over

You gotta bite the bullet
Don't wanna choke it down
You gotta bite the bullet

Start over
