

## Brighter Day

Harem Scarem

For every night in darkness  
There's a brighter day to come  
There are times you feel that nothing's real  
And there's nowhere to run  
Ya can't find what'cha want  
Or what'cha need  
Or any piece of mind  
But now the clouds are moving out  
To leave the storm behind  
We'll find blue skies again  
And come out of the dark  
Love will light the way  
And guide us to a brighter day  
To shine on me and you  
Live on the edge with nothing to lose  
A brighter day is on it's way  
To shine on me and you  
Eyes have opened up now that were shut  
For way too long  
The sun will rise and bring to life  
All hope you thought was gone  
Ya can't find what'cha want  
Or what'cha need  
Or any piece of mind  
But now the clouds are moving out  
To leave the storm behind  
We'll find blue skies again  
And come out of the dark  
Love will light the way  
And guide us to a brighter day  
To shine on me and you  
Live on the edge with nothing to lose  
A brighter day is on it's way  
To shine on me and you  
Love will light the way  
And guide us to a brighter day  
To shine on me and you  
Live on the edge with nothing to lose  
A brighter day is on it's way  
To shine on me and you
