

# Change Comes Around

Harem Scarem

This is my roller coaster  
I ride it everyday  
It's a mirror of my emotions  
I want to wish it all away

News flash of the century  
Story of the day  
If you wanna see mountains crumble  
You can watch it any day

When I come down  
It's hard to get it straight  
I gotta find me a better way

Whenever the light is gone  
You're not the only one  
Breaking down  
When all your faith is gone  
Don't let it pull you under  
Change comes around  
Sail on to higher ground  
Hiding from the thunder  
I think we'd all agree  
That facing fear don't help us  
Escape reality

When I come down  
It's hard to get it straight  
I gotta live with what I say
