

# Chasing Euphoria

Harem Scarem

When you reach for everything  
What you get is nothing fast  
Hard times they come with ease  
Slow downs keep coming way too fast  
Anything to feel alive  
Still numbing ghosts from the past  
One day there were no lines  
They've been crossed and step over millions of times

I poured the gasoline on the bridges I've burned  
Burned down to the ground  
Like a river I run  
Chasing euphoria  
Every clock runs down  
Every stone that I've turned  
Can't fill a hole in your heart  
Burned down to the ground  
Like a river I run  
Chasing euphoria

Choices in front of me  
They look clear but it's all landmines  
We're all drawing our own chalk lines  
In the smoke and mirrors  
There will be nothin left to find

I poured the gasoline on the bridges I've burned  
Burned down to the ground  
Like a river I run  
Chasing euphoria  
Every clock runs down  
Every stone that I've turned  
Can't fill a hole in your heart  
Burned down to the ground  
Like a river I run  
Chasing euphoria

I poured the gasoline on the bridges I've burned  
Burned down to the ground  
Like a river I run  
Chasing euphoria  
Every clock runs down  
Every stone that I've turned  
Can't fill a hole in your heart  
Burned down to the ground  
Like a river I run  
Chasing euphoria
