

# Climb The Gate

Harem Scarem

Born so we could lay  
In a burning bed of rusted nails now  
It's my cause to stay awake

Will human kind prevail  
Over prophecies of godless rages  
For a world that's gone astray

Save preaching better times  
They're bitter lies  
Hey I could always climb the gate

It's heaven I  
Heaven I hold this time  
Heaven I  
It's heaven I hold this time

The comet's on the way  
On holy ground we'll walk with angels  
I just hope they're walking there

I find it hard to pray  
With one foot in my mouth and one in the grave, yeah  
Well, so much for staying sane

Save preaching better times  
They're bitter lies  
Hey I could always climb the gate

It's heaven I  
Heaven I hold this time  
Heaven I  
It's heaven I hold this time

It's climb

Save preaching better times  
They're bitter lies  
Hey I could always climb the gate

It's heaven I  
Heaven I hold this time  
Heaven I  
It's heaven I hold this time

Heaven I  
It's heaven I hold this time  
Heaven I  
Heaven I hold this time

Oh, it's heaven I hold this time
