

Fire & Gasoline

Harem Scarem

Holding out for something I can't get
Life is dodging bullets and avoiding fatal hits
Still I don't know who I am

Desperation fueling every breath
Trying to light a spark again with no accelerant
Still I don't know who I am
What if there's no god or plan

It rolls like rain and thunder on earth or sky
Time is burning like gasoline on fire
Hit moving targets while shooting blind
Time is burning like gasoline on fire

We're playing with fire and gasoline

Life has planted land mines every step
Exploding at the finish line
In the end there's nothing left
Still I don't know who I am
What if there's no god or plan

It rolls like rain and thunder on earth or sky

Time is burning like gasoline on fire
Hit moving targets while shooting blind
Time is burning like gasoline on fire

We're playing with fire and gasoline
