

Hope

Harem Scarem

Life in this hole can get me down
Never too late to turn it around

Separating all your sins
You can't draw the line
Exercising all your demons
Out of your mind

Say that believe
Forever the sun will shine
Shine on your world
Say that you believe
And I will never lose hope

Looking for signs up in the sky
When all along it's lived inside

Separating all your sins
You can't draw the line
Exercising all your demons
Out of your mind

Say that believe
Forever the sun will shine
Shine on your world
Say that you believe
And I will never lose hope

Say that believe
Forever the sun will shine
Shine on your world
Say that you believe
And I will never lose hope

Say that believe
Forever the sun will shine
Shine on your world
Say that you believe
And I will never lose hope
