# Indestructible

**Harem Scarem**

You can rain on their fires
And they'll burn on
They've got faith that won't die
It's indestructible
Just pray for both sides
It's never done
Got faith that won't die
It's indestructible
You can rain on their fires
But they'll still burn on
They've got faith that won't die
It's indestructible
You can pray for both sides
And you're never done
They've got faith that won't die
It's indestructible

In flight
To the promised land
Driven by martyrs
And vengeful gods into war

Hope lies on the battlefield
Breathing it's dying breathe
But who's keeping score anymore

Everyone claims innocence

You can rain on their fires
And they'll burn on
They've got faith that won't die
It's indestructible
Just pray for both sides
It's never done
They've got faith that won't die
It's indestructible

No signs
Of a compromise
Fighting the darkness
With your head
And your heart
In doubt
That there's a master plan
Everyone falling
On their words and swords

Everyone claims innocence

You can rain on their fires
And they'll burn on
They've got faith that won't die
It's indestructible
Just pray for both sides
It's never done
They've got faith that won't die
It's indestructible

Everyone claims innocence

You can rain on their fires
And they'll burn on
They've got faith that won't die
It's indestructible
Just pray for both sides
It's never done
They've got faith that won't die
It's indestructible
