

# No Regrets

Harem Scarem

Wind me up  
I'm getting back on track  
Sign me up  
I'm never looking back  
I've been stuck  
But I'm finally breaking free  
No limits  
On a spiritual journey

I was born to feel  
The burning spinning wheels  
Ya I'm in a race  
Kicking up some dust

I'll be riding  
Highways and open roads  
Yeah, I've got no low gear  
And I've got no control  
White lines got me by the throat  
I've got no fear  
I've got nothing  
And I've got no  
Got no regrets

Now I'm revved up  
I'm the engine  
I'm the steal  
High octane rush  
In a lane reserved for me

I was born to feel  
The burning spinning wheels  
Ya I'm in a race  
Kicking up some dust

I'll be riding  
Highways and open roads  
Yeah, I've got no low gear  
And I've got no control  
White lines got me by the throat  
I've got no fear  
I've got nothing  
And I've got no  
Got no regrets

I'll be riding  
Highways and open roads  
Yeah, I've got no low gear  
And I've got no control  
White lines got me by the throat  
I've got no fear  
I've got nothing  
And I've got no  
Got no regrets

Highways and open roads  
Yeah, I've got no low gear

And I've got no control  
White lines got me by the throat  
I've got no fear  
I've got nothing  
And I've got no  
Got no regrets
