Sinking Ship

Harem Scarem

When the waters get rough
And the waves come crashing in
Who's gonna run
And who'll stay until the end

You can say that you're with me
Say you'll be there
When push comes to shove
Will everyone bail
Ya can't see the front lines
Ya can't see the shore
It's every man for himself

When there's no way out
And there's nothing left
I'm gonna stand my ground
On a sinking ship
When there's no way out
And no going back
I'm gonna stand my ground
On a sinking ship

With nobody onboard
You're bound to run a drift
Like a captain off coarse
They'll all leave you for dead

You can say that you're with me
Say you'll be there
When push comes to shove
Will everyone bail
Ya can't see the front lines
Ya can't see the shore
It's every man for himself

When there's no way out
And there's nothing left
I'm gonna stand my ground
On a sinking ship
When there's no way out
And no going back
I'm gonna stand my ground
On a sinking ship

You can say that you're with me
Say you'll be there
When push comes to shove
Will everyone bail
You can't see the front lines
You can't see the shore
It's every man for himself

When there's no way out
And there's nothing left
I'm gonna stand my ground
On a sinking ship
When there's no way out

And no going back
I'm gonna stand my ground
On a sinking ship
