

The Right Time

Harem Scarem

Baby you were the world to me
We lived our life in innocence
But now it's only me
I tried to hard to tell you
All the feelings way inside
But a lesser heart has drove me to
A fear now in my mind

Is our love like the ones before
You'll just stay and show me how
This one's forever more

Is it not the right time
To call you on the phone
I just want you here with me
And not to be alone
Is it not the right time
To say I'm over you
I know that you're there for me
And I'll be there for you

Maybe the world is here for me
But baby I know I'm alone and it wasn't ment to be
