

Things I Know

Harem Scarem

A shadow walks beside me
So I'm never lonely
And I won't have to live in reality
If I'm out of my head
Then no demons will find it
And I won't get burned
By the fire again

I'll ignore the voices
Saying everything is lost

I'm waiting for a moment
That never comes
Hanging onto hope
When there's isn't one
I just gotta hold on
To things I know ain't true
I'm waiting for the moment
It's gonna change
And I could make the world
A better place
Still I gotta hold on
To things I know ain't true
Like I'll ever be with you

I've been falling from grace
As I run the human race
And I don't know
Ignorance is bliss

I'll ignore the voices
Saying everything is lost

I'm waiting for a moment
That never comes
Hanging onto hope
When there's isn't one
I just gotta hold on
To things I know ain't true
I'm waiting for the moment
It's gonna change
And I could make the world
A better place
Still I gotta hold on
To things I know ain't true
Like I'll ever be with you

I'm waiting for a moment
That never comes
Hanging onto hope
When there's isn't one
I just gotta hold on
To things I know ain't true
I'm waiting for the moment
It's gonna change
And I could make the world
A better place

Still I gotta hold on
To things I know ain't true
Like I'll ever be with you
