

# Time Bomb

Harem Scarem

Clear the way  
A new leaf is turning over  
A call for change  
Know one ever hears

Picking up the pieces of you  
I can't find your senses  
Victim of your own deception  
In the end you'll only lose

You're not fooling me  
Not anyone  
Pretending nothing's wrong

Go get your falling wings  
My falling angel  
I know you're a time bomb  
Ready to explode  
Everybody bleeds  
Mind body and soul  
I know you're a time bomb  
Ready to explode

You fear the day  
Make your move without detection  
Turn away  
You can't save yourself

Picking up the pieces of you  
I can't find your senses  
Victim of your own deception  
In the end you'll only lose

You're not fooling me  
Not anyone  
Pretending nothing's wrong

Go get your falling wings  
My falling angel  
I know you're a time bomb  
Ready to explode  
Everybody bleeds  
Mind body and soul  
I know you're a time bomb  
Ready to explode

Go get your falling wings  
My falling angel  
I know you're a time bomb  
Ready to explode  
Everybody bleeds  
Mind body and soul  
I know you're a time bomb  
Ready to explode

Go get your falling wings  
My falling angel

I know you're a time bomb  
Ready to explode  
Everybody bleeds  
Mind body and soul  
I know you're a time bomb  
Ready to explode
