United

Harem Scarem

Never sit and judge
Until you've walked a mile
In another mans shoes
When everyday's a struggle
Just to keep it alive
Then you've really
Got nothing to lose

Thinking heaven's on their side
Heaven will divide and conquer
God's keeping score
The heavens will collide
Raining heavy fire
Just don't shot back

'Cause united we stand
And united we fall
Drawing lines in the sand
And daring them to cross
And the wars goes on and on
'Til the fight in them is gone
'Cause united we stand
And united we fall

I can't see a surrender
Or an end in sight
There's no win no lose
Shot into the dark
Over enemy lines
Everybody's got something
To prove

Thinking heaven's on their side
Heaven will divide and conquer
God's keeping score
The heavens will collide
Raining heavy fire
Just don't shot back

'Cause united we stand
And united we fall
Drawing lines in the sand
And daring them to cross
And the wars goes on and on
'Til the fight in them is gone
'Cause united we stand
And united we fall

'Cause united we stand
And united we fall
Drawing lines in the sand
And daring them to cross
And the wars goes on and on
'Til the fight in them is gone
'Cause united we stand
And united we fall
