

World Gone To Pieces

Harem Scarem

Lock the door
When you feel defenseless
Get your gun
You're still unprotected
Burn the bridge
We're all in the trenches
Dig the moat
To keep out the masses
Bombs crash to the ground
Now it's all turned upside down
We're living in a
World gone to pieces
And everyone sees it
Now it's up to me and up to you
To keep the dream alive
In a world gone to pieces
With every wound bleeding
Holding on to truth
And never losing sight
In a world gone to pieces
We've blurred the lines

And can't find the edges
In the dark, we're up on the ledges
Cross the lines
To send a message
On your knees
To count your blessings
Bombs crash to the ground
Now it's all turned upside down
We're living in a
World gone to pieces
And everyone sees it
Now it's up to me and up to you
To keep the dream alive
In a world gone to pieces
With every wound bleeding
Holding on to truth
And never losing sight
In a world gone to pieces
